Precautions

- Use provided charging cord or any third-party certified charging cable to charge the lantern.
- Make sure to fully charge till all indicator lights are on before first use.
- Please do not look directly at the LED light, or point the light directly to others' eyes, especially when it is at its brightest level. It could hurt the eyes.
- Please charge it at least once every 6 months to maintain the battery's lifespan.
- Please avoid placing in an extreme temperature environment (either too hot or too cold).
- Please keep it away from children.
- Disposal: When you are ready to dispose of the product after wearing it out, please follow your local government's instructions for environmental and safety purposes.

How to Charge the Camping Light

- Plug the provided USB-C cable into the charging port on the top, and connect it with a 5V-2A power plugger.
- It takes about 3.5 hrs to charge fully.
- Please fully charge the product before first use.
- Note: The indicating lights will flash when it is on charging, and four indicating lights will be stable when the camping light is fully charged.
